

Amendments to the Specification:

Please amend the specification as follows:

Page 2, first full paragraph (lines 4-9)

Two-way signalling ~~hereof~~ as described herein involves first signalling in one-direction by sending signals with a certainty of deliberate reflection which results in ~~thus~~ return signals related to the signals sent according to the nature of the deliberate reflection, and second signalling in the other direction (i.e., the return signals) by varying the nature of the deliberate reflection.
